

Clean Up Game

Help Sparky clean up after lunch!

Pick up a piece of trash (a playing card) and decide where it goes. One player volunteers to have "Scrappy's Answer Sheet". The other players take turns to take a card and identify which bin they think the object on the card would go into. The person with Scrappy's Answer Sheet will let them know if they are correct. If the player is correct they move forward either one space (or if using a die the number that is rolled). The player to reach the end first wins. Play again with a different volunteer.
